

RESUMÉ

KOFI OBRASI OCRAN

P. O Box, 378 • AGONA SWEDRU • +233546107464 • +233501366297 • ocran.obrasi@gmail.com

Portfolio: mupati@devcodes.co

▼ Career Objective

The focus of my career is to be an effective and efficient Full Stack Software Developer who delivers solutions to clients notwithstanding the nature of their problem and to build sustainable businesses. I want to achieve this by joining an established company or an evolving technological group that provides opportunities to develop, hone and apply my experience and skills.

▼ Skills

Tech Stack: ReactJS, VueJS, Express, NodeJS and working familiarity with Laravel and Flask.

Databases: MySQL, MongoDB, Devless (BaaS)

APIs: REST and GraphQL

Infrastructure & Version Control: Linux, Digital Ocean, Git, Circleci

▼ Experience

Oct, 2018 – Now

Software Developer • [EK-BRANDCONSULT](#)

- I assumed the role of a backend developer and extend features on the client's portal developed by the company after the backend developer left the team.
- I develop and deploy both dynamic and static websites for Clients in the Real Estate, Travel and Tours, Hospital and Ecommerce industries.
- I build websites with APIs from the backend developers.
- I built and maintain the E-commerce platform on the company's clients' portal.
- I automated the deployment of WordPress sites with a bash script on Digital Ocean.
- Generally, I do Full Stack development but predominantly Frontend.

September 2017 – September 2018

Field Maintenance Engineer • **National Service Personnel** • **Huawei Technologies GH (S.A) Limited**

- My team and I ensured that the set standard for transmission availability and maintenance of 2G, 3G, 4G networks and MDNS links for MTN Ghana, Vodafone Ghana and Airtel Ghana Projects in Takoradi – Ghana was achieved with few occasions of reported downtime.

January 2015 – October 2018

Freelance Software Developer

- I promoted the online presence of small companies to help market their products and services by developing and launching websites for them. Multiview Designs and Apoga Studios
- I set up custom email for the clients with Zoho mail.
- I worked on personal projects: Soteria Quickmed
